

“Welcome to the

Automated e-Payment System...”

Even if your tenants or service users are in the middle of nowhere, there'll be no excuse for arrears or missed payments once you've added the **allpay.net IVR (Interactive Voice Response) Telephone Payment Service** to your existing service portfolio!

IVR Telephone Payment from allpay.net is **FREE** to existing service users and has to be just about the most convenient and cost-effective service that we offer:

- The IVR Telephone Payment system is available to your service users 24 hours a day, 7 days a week.
- The IVR Telephone Payment system is accessible from any landline or mobile with a Touch Tone keypad (most modern telephones have this).
- IVR Telephone Payments can assist you in becoming e-government compliant.
- An additional payment service makes you more accessible for your tenants or service users thereby helping to reduce the instance of arrears.
- Your choice from two dedicated IVR lines one which accepts both DEBIT and CREDIT cards, the other accepting only DEBIT cards gives you more control over the way your tenants or service users pay their bills.
- Payments made on the IVR Telephone Payment system are totally secure; to confirm each transaction an authorisation code is given by the card issuer which acts in the same way as a paper receipt.
- Payment information is available to you for download on the very next working day, exactly as with all of allpay.net's other payment options.
- Adding the IVR Telephone Payment system to your existing portfolio will not affect any of your other services, it will simply enhance what you can offer.

So how much does all of this cost you? **NOTHING!**

It's totally **FREE** to subscribe; there are no administration charges or additional costs for existing allpay.net clients to add IVR. And that's why you should fill out the enclosed contracts.
