

"Hi! I'm Annie Customer and I've been using allpayments.net to pay my rent - it's fantastic and so easy to use! You simply log on to www.allpayments.net, enter your bank account and Housing Association details and that's it - your rent is paid!

You even receive a confirmation email to tell you so! - But why not try it out for yourself! You can use my cards (shown right) to see how efficient the service really is - just follow the steps detailed in this leaflet ... (I shouldn't really tell you this ... but to help you on your way, for a limited time only I can let you know my password! So when prompted for the password, enter password, but remember ... shh!) If you would like to see a confirmation email - contact allpay.net and they will email you. No more cheque mailing trips to the high street or queuing to pay when you get there - you can now make a payment from the comfort of your own home! Enjoy the benefits that allpayments.net brings!... I do!

Step 1

Service users simply log on or follow the links to <https://www.allpayments.net> Service users are then prompted to enter their Payment Card Number

Step 2

The site automatically identifies the first time that any card is used; all first-time users are asked to enter and confirm a password for added security and an email address at which the name of the cardholder can receive payment confirmation. Service users will be asked for this password each time they log on with the same Payment Card Number. All users of www.allpayments.net must have a valid email address.

Step 3

Service users are greeted with a message confirming the name of the organisation to which they are making a payment. They are prompted to enter the amount they wish to pay and the details of the credit/debit card from which they wish the payment to be taken before clicking Pay Now.

Step 4

Debit/credit cards are authorised in real time by allpay.net's own in-house authorisation engine. No card details are retained within the site. Upon successful completion of the transaction, a confirmation page will appear providing a payment reference and an authorisation code. A confirmation email will also be sent with the same confirmation details to the nominated email address.

The new online bill payment service at www.allpayments.net is yet another of allpay.net's payment options that is available to use 24 hours a day, 365 days a year, making it even easier for your customers to pay you. And, if you're an organisation with e-government targets, by allowing your customers to pay you online via www.allpayments.net, you'll be one step closer to achieving them.

There's no complicated registration process for your customers and no commitment to use the service on a regular basis. The new internet payment service www.allpayments.net is designed to be as flexible as all of allpay.net's other payment options. Whichever of the many other allpay.net payment options your customers are already using, this new online facility will merely serve to complement them because we know that your customers lead busy lives and that the flexibility is important: while they might want to pay you online one week, they might want to go into the Post Office® the next.

Making a payment online couldn't be simpler; service users simply need their payment card and a debit or credit card. Currently www.allpayments.net accepts payments from cards displaying the Mastercard, Visa, Delta, Switch (Maestro) and Solo logos. To assist you to control the payments made to your particular organisation, it's possible to restrict your payments to debit card only.

All of the pages on www.allpayments.net are secure. This is illustrated by the padlock symbol shown in the lower right hand portion of the screen and in the address bar at the top of the screen. Instead of the usual http://, you will see https://. The "s" means that the site is a secure one.

It is FREE for allpay.net's clients to subscribe to the www.allpayments.net service; customer transactions made online will be charged to client organisations at the prevailing contractual rate – currently 40p per debit card transaction and 2.25% of the value of credit card transactions.

As with all of allpay.net's payment services, daily payment files from www.allpayments.net will be available to clients for next working day download via allpay.net's online client communication system, WebconnectT.
